

REOPENING OF SCHOOLS

WELCOME BACK TO SCHOOL

The outbreak of Covid -19 has far reaching consequences. Reopening of schools is considered an utmost priority. After the prolonged school closures, it is necessary to take precautions before sending your children to school. Mental anxiety, pressure, financial crises, uncertainty, and the online education system have disturbed the day to day activities of students. Children are affected by the new online education system. They were compelled to sit in front of laptops, or mobile phones instead of going to school. They were tied to their houses but after the long period Delhi government has permitted the schools to reopen.

Covid Protocols are to be strictly followed in the schools:

- Temperature is checked with a thermal gun.
- Wearing mask is compulsory.
- Attendance is marked digitally.
- Stickers are pasted in corridors and entry gate to maintain proper distance.
- Students are divided into small groups to maintain social distance in the classrooms.
- Labs, library, washrooms medical room, corridors, etc. have also been sanitised regularly.
- Bags are sanitised properly.
- Installation of hand sanitizer pump
- Conducting classrooms in staggered manner.
- Maintain social distancing is must.

The operational success will depend upon the school leadership. To prepare , the leadership of the school must first be convinced about the global evidence that schools are safe and that working together can mitigate any minimal risk.

All the best!!!
